## Cornerstone Laid At Bunker Hill Church

The original cornerstone from the old Bunker Hill Methodist Church was used at the cornerstone laying Sunday afternoon of the \$48,000 red brick structure.

Over 100 persons witnessed the laying of the cornerstone, pictured above, as Tom Frantz, building committee chairman, holds the trowel and the Rev. Ralph Fotia, pastor, looks on.

"If the Christian cornerstone had

not been laid by the families of Bunker Hill Church, then the cornerstone we are laying now would be meaningless," Rev. Fotia told the congregation.

The history of the church was presented by Stanley Howard and Mrs. Willard Headland led in group singing. Mr. Frantz presented a scriptural reading, while Rev. Fotia led in the litany for the ceremony.

The one-floor plan, now under

## 399 Deaths Are Recorded Over Weekend

By The Associated Press

Millions of American motorists wound up the long four-day Memorial Day weekend Sunday night with a better safety record than expected.

There were 400 accidental deaths on the nation's highways for the holiday period. The toll was about what it would have been on any comparable nonholiday period in the summer.

California led the nation with 37 traffic deaths. Texas was second with 32. North Dakota reported none.

The national toll, however, was well above the 347 traffic deaths recorded on the last previous four day Memorial Day weekend in 1950. Fewer cars were on the road then.

The latest count of accidental deaths for the period from 6 p.m. last Wednesday to midnight Sunday included 400 highway fatalities, 134 drownings and 113 from miscellaneous causes.

The council had said about 405 motorists could be expected to die on any four-day summer period not involving a holiday.

The council's prediction of 120 highway deaths for the Memorial Day period alone (6 p.m. Wednesday to midnight Thursday) was 26 above the actual toll.

## Holiday Death Toll In Ohio Accidents Is 35

### 24 Are Victims Of Highway Mishaps; Five Persons Drown

By The Associated Press

Thirty-five persons died accidentally in Ohio during the long Memorial Day weekend which began last Wednesday. Twenty-four of these were in traffic accidents.

Safety officials had predicted before the holiday period began that highway accidents would claim 21 lives in Ohio—the average for each of the last two Memorial Day weekends.

Of the total dead, five drowned and six died in various types of accidents, according to an Associated Press survey which began last Wednesday at 6 p.m. and ended at midnight Sunday.

The holiday death toll remained low Wednesday and Thursday with only five reported, but the fatalities mounted as motorists hit the highways Saturday and Sunday.

Fatalities reported from 6 p.m. Friday to midnight Sunday:

Friday

Ralph Berry, 37, Rt. 1, Waldo, when hit by a car at an intersection in Waldo.

Mrs. Lois Joan Pursley, 28, Tallmadge, when her car went out of control near her home.

Saturday

James Fields, 24, Cincinnati, when the car in which he was riding collided with a Greyhound bus on Ohio 48 in Kettering.

Sonia Ann Tokar, 12, Cleveland, in a collision on the Ohio Turnpike.

Gerald Bonewit, 25, Orrville, died Saturday of injuries received Friday night when his auto left a road near Wooster.

Harry Price, 70, Grove City, when his pickup truck skidded off a wire fence in Franklin County.

Otto H. Baden, 49, Rt. 2, Holgate, when his car left a road near Defiance and struck a pole and tree.

Daniel Dunham, 64, Portsmouth, died Saturday of pistol wounds received Friday night while he was toying with the weapon.

Chester Smalley, 20, West Union, when his car left Ohio 41 near Peebles and struck a tree.

James Holderman, 13, Mentor Heads, drowned when he stepped in a hole while wading in Lake Erie near Painesville.

Frank Comeone, 19, Akron, drowned in a reservoir in Akron while swimming.

William R. Myers, Columbus, when hit by a hit-and-run driver in Columbus.

Floyd L. McConnochie, 51, Newark, in an auto collision at Ohio 62 and 661 eight miles east of Johnson in Licking County.

Paul O. Schultz, 26, and his nephew, James Allen Miser, 22-month-old son of Mr. and Mrs. Kenneth Miser of Jewett, when Schultz's pickup truck was struck by a Pennsylvania Railroad

# 2,000 Scientists Ask Halt To Tests Of Nuclear Bombs

## Daring Air Force Test Pilot Rides Balloon 18 Miles Up

### 4 Hurt, 9 Cited In Accidents

#### Weekend Collisions Keep Patrol Busy

Four persons were injured and nine arrested Saturday, Sunday, and today following a series of 10 auto accidents that took place on district highways.

Two 14-year-old Salem youths were treated for lacerations and bruises of the body after their car went out of control and overturned on the Canfield-Lisbon Road, five miles northeast of Salem, Saturday at 12:15 p.m. They were thrown from the car when it overturned, state patrolmen said.

The driver, Horace Wilson, 16, of Greenfield, was cited in juvenile court for having no operator's license. His passengers, Robert Mincher and Joseph Bowers, both of RD 5, Salem, were treated by a doctor.

### 6000 Betters By 20,000 Feet Old Record Of 76,000

#### Seniors Told How Best To Serve

A daring Air Force test pilot, sealed in a metal capsule attached to a huge plastic balloon, rode to a record-breaking 96,000 feet—8 miles—Sunday in a flight he said was "inspiring . . . the proudest of my life."

Capt. J. W. Kittinger Jr., 28, Rapid City, S.D., by two Navy commanders last November.

He described the trip, from takeoff at 6:23 a.m. at Fleming Field here to the landing near Weaver, Minn., about 80 miles south at 12:57 p.m., as "completely successful."

The flight was one in a series of tests which may prove valuable in rocket and possible manned satellite flights. Another manned balloon will be sent to over 100,000 for 24 hours sometime this summer.

Kittinger spent about 12 hours in the cramped 3x7-foot pressurized capsule. He entered the craft at 1 a.m. to begin instrument tests and checks.

Asked if he suffered any feelings of claustrophobia, he replied: "I've spent six days in that capsule and it feels just like home."

He said the view was "most beautiful and inspiring," and that from his position just a few miles east of Minneapolis he could see the eastern boundaries of Lake Michigan.

He said he was not nervous during the flight and that the ascent was made in 78 minutes. He remained at 96,000 feet, the balloon's maximum, for an hour and 50 minutes before being summoned down when voice radio fa-

### Baccalaureate Service Held

#### Seniors Told How Best To Serve

"The deepest meaning of life is found in Jesus' words, in Mark 8:35: 'For whoever would save his life would lose it; and whoever loses his life for my sake and the Gospels would save it,'" the Rev. A. Laten Carter, pastor of the First Presbyterian Church, told the prospective graduates of the 1957 class of Salem High School at baccalaureate services Sunday evening at the school.

"The Better Part" was the subject of Rev. Carter's talk and was based on Luke 10:38-42, applying the Biblical words to modern life.

"It is possible to be burdened with much serving and to be 'troubled about many things' and not really give effective service," Rev. Carter said, adding that "The problem is that we busy people lose perspective because we have lost the Word of Christ which gives meaning to life and work."

Pauling, head of the Division of Technology in Pasadena, said the statement was prepared by him "as an individual scientist and was signed by other scientists as individuals."

Nobel Winners Sign

The 2,000 signatures were received in four days—last Wednesday through Saturday. Signers included two other Nobel Prize winners—Dr. H. J. Muller, Indiana University, who received the prize in 1946 for discovering that penetrating radiation produces mutations in plants and animals, and Dr. Joseph Erlanger, Washington University, St. Louis, Mo., 1944 winner in physiology and medicine.

"About half of the scientists who signed the appeal are biologists, and many of the others are biochemists, chemists and medical scientists," Pauling said.

Dr. Pauling won the Nobel award in 1954 for research in chemistry. He said in a television interview Sunday — on ABC's coast-to-coast program *Medical Horizons* — that fall-out from nuclear tests will cause 200,000 children in each of the next 20 generations to be mentally or physically defective.

Appeal Results From Address

He said the appeal resulted from an address he gave last May 15 to students and faculty at Washington University. He said he emphasized there is essentially unanimous agreement among scientists experienced in biological effects of radiation as to magnitude of the effects.

He said he expressed conviction that to stop the testing through international agreement would be an effective first step toward averting a cataclysmic nuclear war.

## Board Of Education To Convene Tonight

The commencement program and list of prospective 1957 graduates will be approved by the Board of Education at tonight's session in the board's office at Salem High School.

Progress reports on the new high school building will be heard.

## Bliss Company Marks 100th Anniversary Of Its Founding

### Rolling Mill Division Here Is Integral Part Of Industry

The E. W. Bliss Company lights 100 candles on its birthday cake this month.

The people of Salem have a good slice of that cake because one of the Bliss Company's important segments — its Rolling Mill Division — is located here on Franklin St., occupying two city blocks, part of which was the old Buckeye Engine Works.

It was a good day for everyone back in 1920 when Bliss, already the world's largest builder of presses, purchased Buckeye so it could concentrate more heavily in the building of rolling mills and allied equipment. For since then, Bliss has contributed importantly to the Salem community, and the people of Salem and its environs, in turn, have helped this Bliss Division grow into an important factor in the mill industry of the free world.

THE BIG MILLS that Bliss makes for the rolling and shaping of steel and other metals are spectacular — like the world's fastest tiltable temper mill built for the Salem community, and the people of Salem and its environs. This is a method of producing strip, tubing and other wrought shapes directly from powder, with a savings in equipment and other costs of about 80 per cent over conventional methods. The Che-metals Corp. holds patent rights on the process, but Bliss owns 20 per

# Columbian Kindergarten Pupils Attend Clinic

## Kiwanis, Rotary Clubs Plan Program Meetings For Tonight

COLUMBIANA — Ninety-six children who will be entering kindergarten school next fall were examined in the annual pre-school clinic at Dixon School Friday, sponsored by the Columbianas Mothers Club.

The clinic was under the direction of Mrs. Ruth Gross, Columbianas school health nurse, assisted by Mrs. Sybel Degnan, Fairfield and Leetonia school health nurse, and Mrs. Violet Peterson and Miss May Alice Rumberger, of the Columbianas county health department.

Physical examinations were made by Dr. C. S. Palmer, Columbianas county health commissioner, and Dr. C. W. Dewalt. Teeth were inspected by Dr. Wilbur Lehman and Dr. Irene Houk, and vision tested by Dr. J. R. Garstik and Dr. W. D. Jones.

Capt. James Bagley and Master Sergeant Hall Kelley, Ground Observer Corps officers from Canton Filter Center, will be speakers at the meeting of the Kiwanis Club at Heck's restaurant at 6:30 p.m. today.

**OLIN MOWEN** and Al Wells, program chairmen for the meeting of the Rotary Club at Valley Golf at 6:30 p.m. today, will present as the speaker on an aeronautics program Galen Elser of North Lima, amateur pilot.

Miriam Circle of the Presbyterian Church will meet at the home of Mrs. Floyd Gutera, Lisbon Road, at 8 p.m. tomorrow, when Mrs. Edward Seel, wife of the assistant pastor of Westminster Presbyterian Church, Youngstown, will be the speaker on "Porto Rico."

Rev. Seel was formerly president of the Polytechnic Institute in Porto Rico, where they lived several years after having been in mission work in South America. Mr. Seel retired from the institute in 1955.

Jerusalem Lutheran Church Daughters of the King will meet in the church at 8 p.m. tomorrow.

The losing team in the membership contest will treat the winning team at the meeting of Pandora Rebekah Lodge at 8 p.m. today. Initiation is scheduled for the meeting Monday evening, June 17.

Christ Mission truck from Youngstown will begin collections in Columbianas, Thursday and continue through Thursday, June 20.

**RICHARD BERRYMAN**, director of the Firestone Park summer recreational program for boys and girls, announces that youths wishing to participate should either register at the park office this week or report the opening day of activities next Monday, June 10. While registration is not an absolute requirement, it will facilitate the work of setting up teams.

The program as planned provides for the boys to meet daily except Saturdays from 9 a.m. until noon, and in addition there will be a high school boys basketball league to meet daily at 6 p.m.

## Leetonia Poppy Day Nets \$112

LEETONIA — The girls' period will be from 1:30 to 3:30 p.m.

Boys of the fourth, fifth and sixth grades in school will constitute Section 1 with basketball and baseball. Boys of the seventh, eighth and ninth grades in school will constitute Section 2, with softball, basketball, baseball and touch football. A five or six-team basketball league of high school boys, four boys to a team, will be Section 3 of the boys' division.

Girls recreation, open to intermediate, junior high and high school groups, will include tennis, badminton, archery and softball.

A time schedule will be set up for girls' sports after all have registered.

Open church will be observed in St. Patrick's Catholic Church in Leetonia at 9 a.m. Saturday, July 27, for the wedding of Miss Lois Eileen Allmon, daughter of Mr. and Mrs. Russell Allmon of RD 2, Columbianas, and Donald Leroy Gleckler, son of Mr. and Mrs. Ervin Gleckler, Garfield Road.

Invitations will be issued for a reception at Heck's Restaurant at noon following the ceremony.

Mrs. Glenn Otto announced that kindergarten pictures must be ordered by June 15. Any one interested should contact Mrs. Otto.

John Fieldhouse, a member of the Leetonia High School graduating class, was notified this week that he had been awarded a four-year work-study scholarship at Wilmington College, Wilmington.

Fieldhouse is the son of Mr. and Mrs. Marvin Fieldhouse, Washington.

The occasion was planned by their son-in-law and daughter, Mr. and Mrs. Richard Conkle, their son Paul and their nephew and niece, Mr. and Mrs. Virgil Yaeger.

Mr. and Mrs. Reed were married May 29, 1917 by Rev. W. J. Kratz, a Lutheran minister in Youngstown. They went to housekeeping on the farm on which they now live.

Mr. Reed taught school a number of years in Mahoning County and Mr. Reed is engaged in farming.

Guests included Mr. and Mrs. Earl Reed, Mr. and Mrs. Willard Liggett, sons and daughter, all of Denison, Mr. and Mrs. Jesse Snyder and Mr. and Mrs. Robert Snyder and family of Hanoverton, Mr. and Mrs. Roy Neff of Florida, Mr. and Mrs. Charles Yaeger of Poland, Mr. and Mrs. Russel Yaeger and children of New Middleton, Mr. and Mrs. Raymond Yaeger and Mr. and Mrs. P. E. McNab of Salem.

In the evening the relatives gathered and enjoyed a buffet luncheon.

# O'Neill, Ohio GOP Betting Political Lives Prosperity Will Continue

**Business Boom Means Tax Dollars Keep Rolling Into Till**

COLUMBUS, Ohio (AP)—Republican Gov. C. William O'Neill and the GOP-controlled legislature are betting their political lives that prosperity will keep rolling along.

Booming business means that the tax dollars keep rolling into the state treasury—and the state of Ohio is going to need just about every dollar it can lay hands on in the two-year budget period beginning July 1.

Republican legislative leaders often criticized Democratic Gov. Frank J. Lausche for his low-Lausche called them "prudent" estimates of state income. Republicans called for "realistic" estimates. And, because there always was a hefty surplus at the end of each biennium in the Lausche regime, Republican lawmakers got into the habit of spending a lot more money than Lausche's income estimates showed.

#### Get 'Realistic Estimate'

This year, from Republican O'Neill, Republican legislative leaders got their "realistic" estimate. Democratic lawmakers called it "optimistic."

O'Neill and Finance Director John Skipton told the legislature last February their income estimates were based on "the best information available concerning business conditions for the ensuing two years."

But the lawmakers, perhaps because of the habit of being more optimistic than the governor, appropriated about 10 million dollars more than the income estimate.

That means business is going to have to get better if Ohio is to keep its budget balanced.

The legislature which wound up its working sessions last Thursday morning authorized the spending of \$1,916,552,000. The total is within striking distance of double the \$1,042,554,000 total which the 1955 legislature authorized to be spent.

Of course, the 1957 total is heavily weighted by about 785 million dollars for highway construction, much of which comes from the federal government as President Eisenhower's multi-billion-dollar interstate highway building program is launched.

#### General Operations Budget

For a number of years, the state has had a general operations budget, another for capital improvements and separate appropriations for local governments and sundry claims.

But this year O'Neill, "in order to dramatize the way the state's money is spent," added two other budget bills. One, containing appropriations of 414½ million dollars, covers the cost of several major state subsidies, including 36½ million dollars for the school foundation program.

Another, containing appropriations of nearly 150 million dollars, includes the cost of assistance programs, including aid for the aged.

And the capital improvements measure—better known as the "Additions and Betterments bill"—this year is nearly 100 million dollars higher than two years ago. This year's A & B bill reflects a big chunk of income from the 150-million-dollar bond issue approved by the people for the construction of new mental and penal institutions, university and public school facilities.

#### Included Slaary Increase

The general operations budget including highways, stood at \$1,149,000,000 when it came to the legislature from the governor's desk, but jumped to \$1,167,266,255 by the time the legislature finished with it. That included a salary increase for some of the lower-paid state employees that will cost nearly 13½ millions. Slightly less than 7 millions of that amount came from the general fund. The rest came from highways, wildlife and liquor funds.

Senate Majority Leader Joseph W. Bartunek (D-Cuyahoga), commenting on state spending during senate debate on the general operations budget, declared:

"I predict that even this huge amount won't be enough to cover the state spending."

Then, in a philosophical aside, he commented on state spending since World War I:

"We have gone from a debt-free state to a debt-ridden state."

He referred to 100 million dollars still outstanding in World War II bonus bonds, 175 millions outstanding in highway construction bonds, 25 millions outstanding in capital improvement notes preparatory to the issuance of the full 150 millions in bonds in the next few years, and the coming issuance of about another 75 million dollars' worth of ocean bonus bonds. The state still has more than 300 millions in borrowing power on the highway bond issue authorized for a maximum of 500 million dollars.

#### TO RECEIVE DEGREE

MORGANTOWN, W. VA. (AP)—Gov. C. William O'Neill of Ohio will receive an honorary degree from West Virginia University at the school's commencement exercises here today.

If your cheese sauce has curdled slightly, beat with a rotary beater just before serving.

## Triple Threat Man

By HAL BOYLE

NEW YORK (AP)—"The greatest hazard in creative work is success," said Robert Rossen, one of Hollywood's few top triple threat men.

"Once a man wins success he wants to hold on to it too much. He becomes afraid to take chances and do risky things. He becomes cautious and repetitious. I believe there's a lot of sense in the old dice table saying: 'get a hunch—bet a bunch.'

"I don't feel so afraid of success, or afraid of losing it. I've had a couple of failures and learned to bounce back from them."

Rossen, who recently directed Darryl F. Zanuck's production of "Island in the Sun," is a chunky former East Side kid who first punched his way to the top with his typewriter.

Now he ranks with a few other film colony all around stars (such as John Huston, Billy Wilder and Nunnally Johnson) who can write, direct, or produce a picture. Two films in which Rossen per-

#### Television

## Panel Show's Girl Friday Has Exciting Job

By CHARLES MERCER

NEW YORK (AP)—Not long ago Alan Sherman, producer of "I've Got a Secret" (CBS-TV), told Adrienne Koe, the comely young coordinator of production for the show:

"Call up Albert Schweitzer in Africa. Tell him that we'll pay his expenses to come to New York and appear on the show. All his winnings will go to the Schweitzer Foundation."

Miss Koe recalls, "So I picked up the phone and told the operator to get me Albert Schweitzer in Africa. She couldn't reach Dr. Schweitzer."

The incident is only one of the many interesting things that befell a Girl Friday working for "I've Got a Secret," the show on which Garry Moore serves as master of ceremonies Wednesday evenings.

The purpose, of course, is to stump the panelists: Bill Cullen, Henry Morgan, Faye Emerson, Jayne Meadows.

A recent "secret" which the panelists were requested to guess was that guest Vera Ellen was wearing a dress made from an old suit of Bill Cullen's with accessories created from some haberdashery of Henry Morgan's. To obtain the raw materials for Miss Ellen's costume involved larceny (of a kind)—and also involved Miss Koe.

She obtained the articles with the connivance of friends and relatives of the panelists. Cullen recognized a piece of his old suit too late to guess the secret." This larceny was accomplished more easily, however, than that involving guest Rudy Vallee's "secret": He was raiding Faye Emerson's ice box. But first, of course, it was necessary for Miss Koe to obtain Miss Emerson's ice box. The panelist's husband, Skitch Henderson, cooperated. Miss Emerson guessed Vallee's "secret," by the way.

**4 OHIOANS GET AWARDS**  
LEWISBURG, W. VA. (AP)—Four Ohioans received awards as outstanding cadets at Greenbrier Military School at the final dress parade of the year Sunday. They were: superior cadets—James A. Whitaker, Marietta; and Alex W. Whittaker, Columbus; intramural rifle—Donald J. Boston, Chardon; and best drill squad—Sgt. Richard M. Smith, Dayton, commander of the 3rd squad of the band.

**DIES IN PLANE CRASH**  
BEREA, Ky. (AP)—Edward Franz Jr., 44, of Cincinnati, was killed Sunday when his light plane crashed into a wooded hillside about three miles south of here. He was reported en route from Knoxville to Cincinnati on the last leg of a cross country flight.

"We have gone from a debt-free state to a debt-ridden state."

He referred to 100 million dollars still outstanding in World War II bonus bonds, 175 millions outstanding in highway construction bonds, 25 millions outstanding in capital improvement notes preparatory to the issuance of the full 150 millions in bonds in the next few years, and the coming issuance of about another 75 million dollars' worth of ocean bonus bonds. The state still has more than 300 millions in borrowing power on the highway bond issue authorized for a maximum of 500 million dollars.

OUT ON A LIMB—County Commissioner Jesse K. Bell, of Dallas, Texas, is literally out on a limb as he sits in a tree awaiting rescue from the flooded lowlands along the Trinity River. Bell and three workers from his district were making an inspection tour of a levee break when their boat capsized and they took refuge in the trees. They had to stay in this position for about a half-hour before they were rescued.

#### County Motor Club Ranks 11th In State

The Columbiana County Motor Club, with a membership of 6,813 ranks 11th in the state in total membership, according to the Ohio Automobile Association.

An increase in members moved the Columbiana Club from 12th to 11th ranking. The county club has offices in Salem and East Liverpool. Albert P. Morris is manager, with Robert Campbell managing the East Liverpool office.

**Bowling Green U. Suspends Area Student**

BOWLING GREEN, Ohio (AP)—An 11th student has been dismissed as the result of the May 24 student demonstration at Bowling Green State University.

Dr. Elden Smith, director of student life and services, identified the student as James H. Hoppel, a freshman from Rt. 2, East Liverpool. He said Hoppel was dismissed for "his part in connection with the demonstration."

He did not specify Hoppel's part in the demonstration in which an

## Salem Needs A YWCA

There is no doubt that Salem needs a YWCA. When a charter membership drive in the Young Women's Christian Association was held this spring 700 persons signed up. Since that time the enthusiasm has been so great that an additional 600 members have enrolled.

And now, with more than 1,300 persons on the membership roster, the immediate task ahead is the campaign to raise \$75,000 for building purposes. Already a \$40,000 bequest by the late Mrs. Edith Ritz has made it possible to obtain an option on a property on N. Lincoln Ave. which YW leaders hope to remodel and enlarge into an adequate YWCA Home.

In the first week of the campaign \$6,019 has been contributed and when campaign workers make their first official reports tonight this amount is expected to be boosted considerably.

Much credit for spearheading the YWCA drive goes to a group of energetic women who long ago sensed the need of a Christian recreational center for young girls and adults but until a year ago did not have the opportunity to make use of a special bequest for the specific purpose of establishing a YWCA here. Mrs. Ritz's will made that possible.

The women who are serving as leaders and co-leaders along with the men of the community in pushing the campaign for funds have accepted Mrs. Ritz's challenge. But they need the whole-hearted support of Salem citizens, businesses and industries to make the YWCA a reality. Such a center not only will serve the community well but it will stand as a tribute to the energies of Salem citizens.

## Dio Vs. Justice

Victor Riesel made no comment when told that Johnny Dio and three others accused of conspiracy to blind him with acid had thwarted justice by silencing the key witness against them.

Perhaps U.S. Attorney Paul W. Williams had said all there was to say — that the Department of Justice was not through fighting. That is its comfort.

The FBI and the federal grand jury which returned the indictments against Dio and his friends knew everything they needed to know. The key witness, now serving a sentence for his part in the conspiracy, had told them. But he refused to say the same things in court.

The case has been pigeonholed, in the hope that evidence can be obtained. Williams says the government will keep digging. While it is digging, Johnny Dio and his friends have had the first laugh. Millions of Americans who never realized until the Riesel incident what racketeers and thugs are capable of doing know now that they have resources sufficient to block the Department of Justice, itself.

## Other Way Around

A footnote on the recent Taiwan demonstration against Americans by Nationalist Chinese remains to be written.

Taiwan has no status — forces treaty with the United States. In the absence of such a treaty, American soldiers have what used to be resented throughout Asia as "extra-territoriality." This means they cannot be tried for civil crimes by the local government but are answerable only to their officers through courts — martial.

This was the situation which enraged Formosans when an American soldier off-duty shot and killed a Chinese. Not only could the soldier not be tried for a civil crime but he was found guilty-free by a court-martial.

One immediate result of the demonstration which flared up as a result will be to hasten negotiations for a status — forces treaty permitting local government to assert its proper authority over civil crimes against its own citizens.

## Cheer Up, It's Progress

The 120-death highway toll for Memorial Day fell considerably short of the predicted total. Yet there was no shortage of traffic, no shortage of miles traveled, nothing peculiar about the weather to account for an upset.

But the fact is there was no upset. A trend now well established continued to assert itself, statistically. Americans are becoming safer on the highway than safety experts once believed they ever would be or could be.

Accident totals are not keeping pace with the enormous increase in ownership and use of automobiles. It is safer to travel 10,000 miles a year in an automobile today than it was in the 1920's when automobiles were fewer and slower and high-speed highways did not exist.

Here in Ohio during the first three months of 1957, the number of accidents was 5 per cent less than it was for the first quarter a year ago. Deaths were down 8 per cent. This continued a safety trend that began last July and made Ohioans 16 per cent safer than the national average for the first quarter of 1957.

## Communists' Victory

By DAVID LAWRENCE

## Britain May Outsmart Itself In Red China Trade

Sometimes it seems that, if the Communists only wait long enough, they will out-trade and outmaneuver the West.

**A P P A R E N T L Y** the alliance of the free world is not sufficiently sturdy or patient enough at times to maintain unity against the common enemy.

Pressed by British businessmen who want to sell their goods, the London government now has decided to relax its embargo on trade with Red China. Without getting a single concession in return, the British government has yielded to the Red Chinese and will ship to them many of the commodities which hitherto have been banned.

This will strengthen Red China and help industrialize a country which is hostile to the West.

The United States government is disappointed over the action and has said so publicly.

The British, on the other hand, are repeating a fallacious argument they have made often in the past — namely, that, since the goods can go into Soviet Russia, it is illegal to bar direct shipment to Red China of goods now going there indirectly.

The answer is that at present it costs the Soviets and the Red Chinese lots of money and takes a great deal of valuable freight space to send the goods over the Trans-Siberian railway from Russia to China.

**L I K E W I S E**, it is expensive to send by long sea voyage from Britain cargoes that can only be landed either in eastern European ports or carried to Siberian coastal ports — and all this with great difficulty and delay in certain seasons of the year.

The rule here is that the same ban will be maintained as before on American exports but it will be much harder to police this now since the British have begun to let down the bars.

Fifteen countries have been meeting in Paris for more than a month trying to work out a unanimous agreement on maintaining the embargo but the talks broke down because the British wanted to "go it alone."

It is an unfortunate development and must be marked up as a signal victory for the Communists in the "cold war." It was handed to them on a platter by Great Britain.

These are questions which the British have not satisfactorily answered. It is known here that an influential lobby in England has been steadily pressing the Conservative government to relax the trade embargo.

Britain exists to no small extent on world trade and it is a sad fact that, even in the early years of World War I, some British businessmen traded with the enemy, much to the discomfiture of the

## Excessive Noise

The world we live in is getting noisier and noisier. There are reasons for believing that excessive noise may damage the hearing apparatus and certainly does the general nervous system no good.

In this machine age, the number of industries in which workers are exposed to excessive noise is greater than ever before. Fortunately the noise and the danger can be reduced in most cases by such methods as lubricating machines, sound-proofing rooms, use of insulation and special devices to protect the hearing.

Those who do not work in industries of this kind, but are subjected to a great deal of noise (usually worse in summer when windows are open) do not suffer much danger to hearing but nerves are kept on the ragged edge.

This is shown principally by interference with sleep, excessive fatigue and, sometimes, emotional disturbance.

The person who sits in his car honking the horn without reason lacks consideration for others and

## The Disarmament Talks

By PETER EDSON

The safe bet is still not to expect too much from the United Nations Disarmament Subcommittee talks reconvening in London after 11 years of so-far fruitless conferring.

Playing it this way, you won't be disappointed if the conferees adjourn with nothing more than an agreement to meet again.

And it's a good bet to lose if they pull a surprise and do agree to any arms reduction at all, however little.

In this respect, disarmament and economy are much alike.

A little economy doesn't do much good. And a little bit of disarmament won't do much good, either.

Indications are that the most to be expected from London will be an agreement among the major powers to impound from 10 to 15 per cent of their air, sea and ground heavy weapons in ports of entry open to international inspection. These weapons would not be destroyed. They would simply be frozen.

Whether these impounded weapons would be replaced by more modern weapons has not been made clear. Production of new weapons would be restricted only by a corresponding 10 to 15 per cent reduction in all military budgets.

But even so, 85 to 90 per cent of the present military efforts of the major powers would be left free to go ahead preparing for the next war.

The most significant point of all, however, is that atomic weapons would not be restricted at all in this 10 to 15 per cent cut being proposed. Only the weapons capable of delivering atomic warheads would be cut — planes, subs and heavy artillery.

To anyone who is really scared about the prospects of an all-out atomic war of the future, this isn't disarmament. It is only a first small step towards disarmament.

The explanation given for this is that no sure method of atomic weapons inspection has so far been devised. So there is no point in trying to agree to stop their production.

Just the same, if the London disarmament conference fails to propose any curbs on atomic weapons,

plenty of sincere peace lovers are bound to feel deep disappointment, if not despair.

One principal reason for this letdown will be that hopes have been raised too high by what the leaders of the world have been saying about disarmament in the last few years.

But all the big plans went on the scrap heap when the Soviet got down to business and offered to negotiate on a limited disarmament agreement. The Russians even abandoned their own previous insistence on complete elimination of nuclear weapons and the abolition of all foreign military bases.

It is only a "small, slight step" towards disarmament, as the Russians call it, that is being negotiated at London now. It may include a limited open-sky inspection of Alaska and a matching area of Eastern Siberia.

The only hopefulness in this first step is that it may be a necessary experiment before it can be enlarged into a second step that will involve some real disarmament.

## Quiet Summer, Rousing Fall

By SAM DAWSON

NEW YORK (P)—Hindsight is a useful tool for business observers.

Taking a look at how the first part of the year didn't turn out, businessmen feel happier today about the second half. They now feel that it will be better than they first feared — that is, for a lot but not all of them.

But businessmen have learned that generalities are tricky in summing up business cycles. Good times don't exist everywhere simultaneously.

The key seems to be human nature — more particularly the slowly changing habits of American consumers.

As far as business is concerned, summer starts with Memorial Day and ends with Labor Day. And with the early part of the year as a guide, businessmen now look for a top performance in those seasonal lines that flower in summer.

Steelmen, for instance, are saying that production may average below 80 per cent of capacity this summer. Hindsight has told them that demand once so panting, been pretty well slaked.

However, the steelmen talk confidently of the summer lull's adding urgency to the expected fall rebound.

But the American citizenry, if going in more for all year around instead of seasonal buying, and for increased leisure time, is also giving every indication of stepping

up its buying of more personal services and recreation and entertainment this summer.

Businessmen who cater to these yens—the many suppliers of the resort and travel industries—look forward to their biggest summer.

But nervousness may creep in again, as many of the basic industries start slowing down in coming weeks. Many of the statistical guides to the economy's trend are likely to slide. They could dip lower than last summer and make the timid jittery.

The cost of living may continue its steady if creeping rise. So the summer may be less tranquil than some hope. But business spokesmen are almost all saying it'll be a quiet summer and a rousing fall.

## So They Say

Far from it (growing more liberal politically), f anything, I think I have grown more conservative. — President Eisenhower.

We're ready to fight anywhere, anytime. —Secretary of the Army Wilbur M. Brucker.

I never used to believe in ghosts but when you have nine of them you have no alternative. — Ted Westwood of Dudley, England, who claims ghosts roam in his home.

To send the children (four U.S.-born boys) to a godless country (Russia) demands a great deal of careful consideration. — Judge John J. Clayton Jr. of Chicago, in case of sons of Russian couple who wish to return.

## Once Over

By H. I. PHILLIPS

## How Candid Can Candor Go?

The most superduper, large economy-sized apology in airwave history has been made by a major TV network for a candid interview program in which a notorious underworld figure not only admitted killings but went from this into a personal attack on top police and other law enforcement officials.

The TV station, the sponsor and the candid interviewer stood on their heads to express sorrow coast to coast, emphasizing that they knew of no act or word by the law enforcement officials in any way justifying the vilifications.

It was a contr

## 'Down On The Farm'

News of Meetings, Helpful Hints For Farmers

### Corn Soybean Planting Delayed

Corn planting showed little progress during the past week in Ohio and is now only about 40 percent completed. Last year, when planting was also delayed by excessive rainfall, nearly half of the corn acreage and two years ago about 90 percent of the corn was planted by this date.

Soybean planting is only 16 percent completed with very little acreage in the major producing areas planted the past week. This is near the rate of progress at this date in 1956 but in 1955 over half of the soybean acreage was planted by this date.

Development of the wheat crop is ahead of last year but later than in 1955. About 20 percent of the wheat acreage has headed compared with 5 percent in 1956 and nearly 70 percent headed at this date in 1955. Of the wheat acreage, about 85 percent is in or past the jointing stage with 45 percent in or past the boot stage.

Cultivation of corn already planted has been retarded and weed control is becoming a problem in many fields.

Late seeded oats have generally made good progress and show good stands except for low spots. Harvest of first cuttings of hay will become more general this week, weather permitting.

Pastures and hay crops are generally in excellent condition.

Fruit prospects vary with some producing areas reporting a favorable outlook while in others earlier frost damage and other factors have been adverse.

### 4-H Dairy Judging Held

Thirteen Mahoning County 4-H Dairy club members judged two rings at the Brown Swiss Canton Show held at the Canfield Fairgrounds last week.

Paul Witmer of Green Township,

president of the Ohio Brown Swiss Breeders Association, has arranged for show halters to be presented to the first place individual winners (a tie):

Ronnie Hutcheson, RD 1, Salem  
Barbara Wehr, RD 1, North Lima.

T-shirts will be presented to the first place team, club members of the Meadowbrook Dairy Maids, whose advisors are Mrs. Richard Rhodes and Mrs. K. E. Hutcheson.

### Raps Potato Controls

Extension of government controls to the U.S. potato-growing industry would force some producers out of business and drive up consumer prices in Ohio, Senator John W. Bricker (R-Ohio) told a Senate Agriculture subcommittee.

Bricker's charges were made in a statement to the Senate Agricultural Marketing Subcommittee opposing legislation in behalf of Maine and Idaho potato growers to establish federal controls prohibiting the marketing of potatoes below Grade 2 for food.

The legislation also would require compulsory on-farm inspection by the Department of Agriculture and provide for marketing policy under a National Grade Labeling Potato Act. Marketing controls would hinge on referendums to be conducted by the USDA among potato growers, as is done among wheat growers.

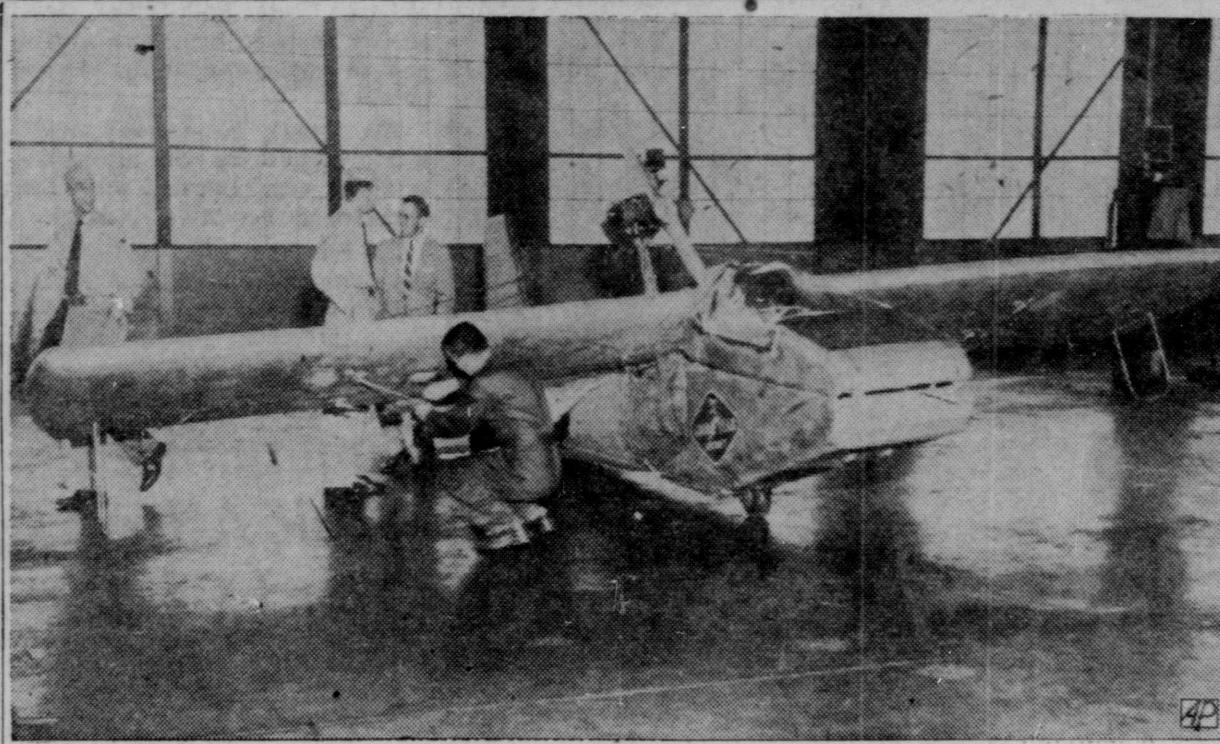

While some states produce potato surpluses, he said, Ohio is a deficit producing area. Unlike some other states, he added, Ohio does not have starch plants where producers can sell their lower grade potatoes.

Mahoning Dairy Milk Tests

Of 697 herds participating in the Mahoning County milk ring test only 61 herds (8.8 per cent) showed up as suspicious herds in which there may be animals infected with Brucellosis.

Since the milk ring test is run on a milk sample from the entire herd each individual animal in these suspicious herds will now be blood-tested. This will determine which animals if any, are infected with Brucellosis.

Dr. Jay Smith of Carrollton, state veterinarian, in charge of this

**RUBBER AIRPLANE** — Tom Blair, an engineer, tightens a strut on a rubber plane shortly before it took off on a flight at the Olathe, Kan., Naval Air Station. The plane, weighing about as much as a man, was hauled out of a compact bundle, unfolded and inflated with compressed air. The Good Year Aircraft Corp., which developed the plane, is now building 10 of them for the Navy. Behind the wing, Lt. Cmdr. L. E. Marsh Jr. talks to Paul Schmitz, right, of Goodyear. Officer at extreme left not identified.

### East Rochester

Mr. and Mrs. Robert Young and daughter Roberta and Mr. and Mrs. Delmer Smith of Minerva, visited relatives in East Liverpool and Newell, W. Va. Sunday.

## Science Shrinks Piles New Way Without Surgery

### Finds Healing Substance That Does Both

#### Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance like the astonishing ability to shrink hemorrhoids without surgery.

The secret is a new healing substance (Bio-Dyne\*) — discovery of a world famous research institute.

This substance is a suppository or ointment form under the name Preparation H.\* At your druggist. Money back guaranteed.

\*Beg. U. S. Pat. Off.

astounding statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne\*) — discovery of a world famous research institute.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all — results were so thorough that sufferers made

to be appreciated. Prized at \$15.80.

Here's a short description of a North Side six rooms and bath that is the ultimate in home ownership. North Side six rooms and bath that has everything. A beautiful new kitchen that will take your breath away. A large living room with fireplace, three large bedrooms with plenty of closets, attached garage, and gas heat. Everything desirable for gracious and comfortable living. Many extras. Your inspection invited for \$15.80.

Here's another choice home in a choice location, one block from Buckeye School. Six rooms, four with deep pile carpeting, Lennox gas heat, 3 large bedrooms. Practically new two-car garage, new modern bath and kitchen. Large lot. Must be seen to be appreciated. Prized at \$15.500.

Whatever you desire in homes, whatever bracket! Don't hesitate to call or stop around. If we don't have exactly what you desire in home ownership, give us a chance to find it for you. We try to suit the house to the people, not the people to the house!

## Betty Lou Talbott Weds

### Thomas Downs At Damascus

"Arrangements of palms and ferns and a basket of white flowers provided the background setting for the Friday evening wedding of Miss Betty Lou Talbott and Thomas E. Downs in the Damascus Friends Church.

Rev. William A. Atchison officiated at the double ring ceremony which united in marriage the daughter of Mr. and Mrs. William A.

Mrs. Thomas E. Downs

## Kensington Church Banquet Is Enjoyed

The annual mother-daughter banquet of the Methodist and Christian Churches in Kensington was held Tuesday evening in the American Legion Home in Hanoverton. Members of the auxiliary served the dinner to 95.

Mrs. Norma Neimister gave the invocation. The welcome was given by Mrs. Mary Morgan, president of the Harmony Class, and the response by Mrs. Rhea Aman, president of the Good Will Class.

Poems read by Mrs. Betty McKarns were followed by a skit, "Crazy to Reduce." The cast was composed of women from both churches. Another group presented a skit, "Ma Kettle and Her Children."

Miss Karen Maple sang several songs, and Mrs. Morgan showed moving pictures of last year's mother-daughter banquet.

Closing numbers on the program were a poem read by Mrs. Anne Archibald and a vocal solo by Mrs. Morgan.

## Mrs. Vernon Weingart Is Club Hostess

Mrs. William Bell and Mrs. Gail Bartchy won prizes in hearts at a recent meeting of the Chatterbox Club in the home of Mrs. Vernon Weingart of Stratton Road.

Lunch was served by the hostess, and Mrs. William Fast of Washingtonville invited the group to meet June 26 at her home.

## Music Pupils Plan Recital For Tuesday

Marshall Bailey will present his students in a recital of piano and organ compositions at the First Baptist Church on Tuesday evening at 8.

The program will include: "Ice Skater's Frolic" and "Aeroplane Stunts" by Janet Falkenstein; "Easter Parade," Jane Kuhl; "Indian Drum" and "March of the Boy Scouts," Larry Fester; "Bell at the Fountain," Stephanie Lewis.

"Minuet" and "The Hunter's Horn" Leroy Schnell; "Frolicking Waves" and "Mountain Sunrise," Evelyn Falkenstein; "On the Ice At Sweet Briar," Donald Whitehill; "Habanera" and "Barcarolle," Joyce Halverstadt.

"Musette" and "Climbing," Sally Mintz; "Spinning Song," William Hall; themes from Pinafore, Kay Koontz; "Gradual" and "Gloria," Carolyn Thomas; "Postlude in G Major," Donald Whitehill; "Dawn," Ginny Stirling; "Jubilate Deo," Beatrice Lutz.

"To A Wild Rose" and "Shadow Dance," Patricia Dolansky; "The Rosary," Karen Trombitas; "Waltz in B Minor," Kay Kuhl; "Under the Leaves," Karen Greenbaum; "Impromptu," Marilyn Fenlon; "Scarf Dance" and "Prelude," Mervin Bartholow; "A Scottish Highland Scene," Judith Doyle.

"Minstrels," Louise Oswald; "Wedding Day," Bonnie Louise Mintz; "Marche de Fete," Dixie Lee Wilde; "The Squirrel," Judie Lee; "Concerto in A Minor, First Movement," Belva Silver.

Orchestral parts will be played on the organ by Mr. Bailey throughout the program.

## Bricker-Dudley Nuptials Held In E. Goshen Friends Church

In the East Goshen Friends Church, Miss Nancy Jean Bricker and John Dudley pledged their marriage vows Sunday at 2:30 p.m.

The bride is the daughter of Mr. and Mrs. Jay Bricker of RD 1, Salem, and the bridegroom is son of Mr. and Mrs. Jesse Dudley of Berlin Center.

Rev. Ralph Blackburn, pastor of the East Goshen Friends Church, officiated at the double ring ceremony. The altar setting of ferns and palms was enhanced with two baskets of chrysanthemums. Tapers in two candelabra lighted the chancel.

Eugene Malmberg of RD 1, Beloit sang "Because," "I Love You Truly," and "The Lord's Prayer."

Mr. Bricker escorted his daughter to the altar and gave her in marriage. Her gown was fashioned of nylon tulle and lace. The lace bodice was styled with a mandarin collar, sheer yoke and long pointed sleeves. Laces trimmed the bouffant skirt of tulle. Her fingertip veil was attached to a tricorn cap adorned with seed pearls. She carried a white orchid with stephanotis on a white Bible.

Mrs. Charles Williams was her sister's matron of honor. Her gown of pink taffeta with scoop neckline was fashioned with a cummerbund and pleated nylon overskirt. She wore a pink headpiece with a pink scalloped circular veil. Pink and white carnations were combined in her colonial bouquet.

Miss Glenda Whitacre of Beloit and Miss Kaye McIntire of Carrollton, former college roommates of the bride, were bridesmaids. Their attire was identical to that of the matron of honor, and they carried bouquets of pink carnations.

The flower girl, Miss Polly McConnell of Lima, dressed in yellow, scattered rose petals in the aisle. Mike Schaffer of North Lima was ring bearer.

Delbert Breit of Berlin Center was best man. Brothers of the bride, Ronald and Charles Bricker of Salem, Charles Lindesmith of Alliance, brother-in-law of the bridegroom, and Al Leitz of Akron ushered.

The bride's mother complemented her navy blue crepe ensemble with pink accessories and a pink corsage. The bridegroom's mother, attired in a silk print, used white accessories and wore a pink corsage.

Miss Marianne Vandenburg, step-sister of the bride, registered the guests at the reception held in Smith Grange Hall. The refreshment table featured a four-tiered wedding cake that was topped with a bride and bridegroom ornament. Ivy encircled the cake.

It was cut and served by the bride's aunt, Mrs. Arlan Hoopes. Miss Nine Dudley, the bridegroom's sister, poured.

Also serving were Mrs. Alfred Gamble, Mrs. Willard Cope, Mrs. Dorothy Allen, Mrs. Harry Behner, Mrs. Calvin Crizer and Mrs. Lynn Fields.

The bride is a graduate of Goshen Union High School. She attended Kent State University and is a teacher at F. A. Sebring School. Her husband, a graduate

## Garden Club Beautifies Corners

### Damascus Street Scene

Attractive street signs and shrubbery at neighboring Damascus are the work of the Damascus Garden Club, which started its project three years ago and continues each season to keep the street intersections beautiful.

Pictured above at the Garfield Ave. sign, around which the club last year placed rose bushes, are members of the club responsible for the project's completion (l. to r.); seated, Mrs. Harold S. Brown, 1955 president of the club; Mrs. Lawrence Root, for June 13 at Goshen High School.

Mrs. John M. Dudley

## Marriage Licenses

of Berlin Center High School, served two years in the Army and is now an employee of the Dravo Corporation.

The bride's going away outfit was a beige dress with brown accessories complemented with the orchid from her bridal bouquet.

The rehearsal party was held at the home of the bridegroom's parents where the bride and bridegroom presented gifts to their attendants.

## Community Picnic Attracts Over 1,000

FAIRFIELD — Fairfield School students, their parents and friends numbering over 1,000 attended the annual picnic held recently at the school.

Prizes in games were given to: Grades 1-3, sack race, Virginia Converse; three legged race, Ronnie Bowman and Sharon Vocature; wheelbarrow race, Tom Neihuis and Paul Morris; dashes, Ronnie Bowman and Sharon Vocature.

John Viscozoli, 24, laborer, Wellsville, and Marlene Marion, 18, file clerk, East Liverpool.

Sidney R. Bloor Jr., 26, mortician, Toronto, and Ruth P. Davison, 22, mathematician, East Liverpool.

John Viscogliosi, 24, laborer, Wellsville, and Stella Galeotti, 27, cashier, East Liverpool.

Clarence Elbert Ferguson, 20, laborer, Salineville, and Judith Ann Taylor, 16, Kensington.

Robert W. Ryan, 26, student, Lisbon, RD 3, and Shirley Easton, 21, potter, Lisbon.

John Goodlin, 22, laborer, Kensington, and Susan Beverly, 21, Lisbon.

## Plans Are Advanced For AAUW Chapter

A Salem Chapter of University Women was discussed when 15 women college graduates gathered Wednesday evening at the Salem Public Library.

Miss Edith Hadley of Youngstown explained the activities and purposes of an AAUW chapter.

Mrs. James Hafer is chairman of the Salem Chapter. The by-laws are being drawn up by Mrs. James Gorman, Miss Geraldine Floding and Miss Ala Zimmerman.

Any women interested in joining may contact Mrs. Hafer or any member of the committee.

An arrangement of yellow and purple iris centered the tea table. Mrs. Gorman presided at the silver service.

## Obituary

### Dies In Cleveland

James H. Litty

James H. Litty of Cleveland, supervising agent of the North-Eastern Division of the Pennsylvania Railroad Co., died suddenly of a heart attack Sunday evening at his home.

He is a brother of John C. Litty of 754 E. 3rd St.

The body will be brought to Salem for funeral services and burial.

### Shickley Infant

Private services were held this morning at the Fry Funeral Home in Columbiana for the infant daughter of Charles and Ruth Joanne Grubbs Shickley of Renkenberger Road, who died at birth at 2:20 a.m. Saturday at Salem City Hospital. Internment was in Columbiana Cemetery.

Besides her parents, she leaves two sisters, Ruth Elaine and Janet Louise, both at home; and a dgrandparents, Mr. and Mrs. Charles D. Shickley of Warren and Mrs. Bertha Grubbs of Youngstown.

### Robert C. Boyd

Robert Charles Boyd, 81, of RD 1, Beloit, died at 5:50 p.m. Sunday in the Central Clinic following a nine-month illness.

Born in Lexington Township, Stark County, Jan. 31, 1876, he was a son of James W. and Hannah Woodland Boyd. His wife, Mary, died in 1938.

Survivors include two sons, Russell J. of Sebring and Morris of Signal; a daughter, Mrs. Ruth Williams of Portland, Ore.; six grandchildren; seven great-grandchildren; and several nieces and nephews in Salem.

The body is at the Stark Memorial pending funeral arrangements.

### Joseph C. Moore

COLUMBIANA — Joseph C. Moore, 85, of 223 S. Main St. died of a stroke at 11:30 p.m. Sunday at Salem City Hospital.

Born in Elkhorn Township, Nov. 2, 1871, he was the son of James H. and Rachel Taylor Moore. On April 28, 1898 he married Myrtle Lower, who died in 1934.

A stationary engineer, he had been employed by the Columbian Boiler Co., retiring in 1940. He lived his entire life in this area.

He was a member of the Methodist Church and Panora Lodge, I.O.O.F.

Survivors include a son, Marvin L. Moore of Columbiana; three grandchildren; and four great-grandchildren.

Services will be held at 3:30 p.m. Wednesday at the Fry Funeral Home with Rev. William Longsworth of the Methodist Church officiating. Burial will be in Columbiana Cemetery.

Friends may call at the funeral home Tuesday evening.

### Tim Elkins

WASHINGTON, D.C. — Tim Elkins, 49, a former White House photographer for Associated Press, died following a heart attack suffered Friday.

Elkins was one of the first photographers employed by AP when it opened its Washington photo bureau in 1930. He covered the White House 11 years and often went on trips with the late President Franklin Roosevelt.

He also worked for the old Washington Times-Herald and Washington Daily News prior to entering the coast guard in 1943 as chief photographer.

Survivors include a daughter, Mrs. Donna Yuhaniak of Salem; his widow, and a son, Timothy Elkins Jr.

Private interment ceremonies will be held Wednesday at Arlington National Cemetery.

### Balloon

Continued from Page One

cilities in the gondola failed. It had originally been planned to keep the balloon at height for several hours.

Kittenger wore a pressure suit in the instrument-crammed gondola. He said the temperature remained at a comfortable 55 degrees inside although it was 70 below outside. For lunch he ate a peanut butter and jelly sandwich.

A medical report after a physical examination on his return came up with a verdict of "hale and hearty," Kittenger said.

## Presidential Office Building Plans Drafted

WASHINGTON (AP) — A \$32,350,000 program calling for construction of a spacious presidential office building and expansion of the White House grounds was recommended to President Eisenhower today.

Before her marriage, she taught history and geography in a Hartford, Wis., high school. In the late 1930's she was a sponsor of the Business and Professional Women's Guild of the National Presbyterian Church.

Survivors, besides her husband, include three sons, William M. Bennett of Salem, Francis M. Bennett of Atlanta, Ga., and Robert M. Bennett of Lafayette, La.; and two daughters, Mrs. Phillip A. Sandell of University City, Mo., and Mrs. O. Victor Wallgren Jr. of Falls Church, Va.; 10 grandchildren; and two great-grandchildren.

Funeral services were held today, with interment scheduled Wednesday in St. Louis, Mo.

### Mrs. William Anglemeyer

LEETONIA — Mrs. Helen Adams Anglemeyer, 63, of Columbia St., died Saturday afternoon at 4:20 at the Cupola Nursing Home following a lengthy illness.

Born July 6, 1893 at West Point, she was the daughter of George and Sarah Davidson Adams. She was a member of St. Paul Lutheran Church of Leetonia.

In December, 1933, she was married to William R. Anglemeyer, who survives.

Other survivors include a daughter, Mrs. Evelyn Reese of Youngstown; a stepdaughter, Mrs. Eleanor Whitacre of Leetonia; a sister, Mrs. Alma Copeland of Youngstown; a brother, Wilbert Adams of Lisbon; and six grandchildren.

Services will be held Tuesdays afternoon at 2 at the Woods Funeral Home with Rev. T. P. Laugher, pastor of St. Paul Lutheran Church, officiating. Interment will be in Oakdale Cemetery.

Friends may call at the funeral home this evening.

### 4 Hurt

Continued from Page One

eration after her car struck an unknown vehicle causing it to collide with a car operated by Wanda Bedell, 47, of Beloit at the intersection of County Road 410 and RT. 172, nine miles southwest of Salem, Saturday at 8:30 p.m.

Donna Benner, 31, of Alliance was cited for reckless operation after her auto struck a car driven by John Moorehouse, 28, of Canton on Rt. 62, five miles east of Alliance, Saturday at 3 p.m.

Tom E. White, 20, of Alliance, was cited by patrolmen for reckless driving after her car went out of control on a curve and into a ditch on Rt. 172, four miles west of Lisbon, Saturday at 11:55 p.m.

Cars driven by Wilbur Toland, 67, of East Liverpool, and Ken Telson, 18, of East Liverpool collided on County Road 430, two miles east of Calcutta, Sunday at 7:15 p.m. Toland was cited for failing to yield the right of way.

Napoleon Cardozo, 66, of East Liverpool, was cited for following too closely after he lost control of his car and went through a fence on Rt. 30, three miles east of Hanoverton today, at 1:15 a.m. Cardozo was attempting to avoid hitting a car ahead of him.

No one was hurt when autos driven by Clarence Gillespie, 63, of East Liverpool and Carolyn Herald of Minneapolis, collided on RT. 7, one mile south of Rogers, Sunday at 6:45 p.m. Patrolmen said Gillespie was arrested for passing without the assured clear distance ahead after his car cut in too sharply while trying to pass Mrs. Herald.

Mary McClure, 22, of East Liverpool, was cited for failing to yield the right of way after her car struck one driven by George Davis, 21, of East Palestine, on RT. 170, two miles northeast of Calcutta, Sunday at 8:20 p.m.

At a meeting Friday at Salineville High School, the executive committee of the Columbiana County Teachers' Association, adopted a tentative schedule for the Columbiana County workshop which will be held at Beaver Local High School Sept. 27.

Registration will start at 9 a.m. followed by invocation, welcome remarks by President Peter Marra; remarks by Executive Superintendent George Vanhorn of Beaver Local High School, and County Superintendent James L. McBride, musical numbers, introduction of guests and consultants, an address, and dinner at noon followed by workshop.

The speaker and consultants are being contacted now for verification of their plans to attend.

County schools will be closed so that all teachers will be able to attend. Last year's audio workshop was held at United Local School

**HUNGARIANS DEPART**  
VIENNA (AP) — Nearly 2,000 Hungarian refugees left Austria for other countries during the past week. The departures included 271 to the United States, bringing the total sent to America to 32,495 since last October. Austria police reported that only seven new Hungarian refugees arrived here during the week.

## Two Area Residents Are Injured In Falls

Two area residents sustained injuries in falls at their homes on Sunday, and are receiving treatment at City Hospital.

Linda Sue Ritchey, five-year-old daughter of Mr. and Mrs. Rollan Ritchey of 1481 S. Lincoln Ave., fractured her left arm while playing. She is reported in good condition.

In fair condition is Mrs. Ada Halverstadt, 81, of RD 5, Lisbon, who fell down the cellar stairs and fractured her left arm and wrist.

**\$149½ Million Sought For Postal Dept.**

WASHINGTON (AP) — President Eisenhower today asked Congress for a supplemental appropriation of 149½ million dollars for the Post Office Department. He said it is needed to avert a substantial cut back in mail service July 1.

The program also envisions a new executive office building across Pennsylvania Avenue, just northwest of the White House and erection on that site of a new office building for the President's staff.

Under the plan the present west wing of the White House, where the President and some of his staff now have their offices, would be remodeled for use as quarters for visiting dignitaries.

The program also envisions a new executive office building across Pennsylvania Avenue, just northwest of the White House and erection on that site of a new office building for the President's staff.

The study commission which reported to Eisenhower today was created by Congress in 1956.

But chances that Congress will authorize the program this session, if Eisenhower calls for such action, appear dim in the light of the economy mood now prevailing in Congress. On top of that, House Speaker Rayburn (D-Tex) recently said he was against any plan for raising the old State-War-Navy building.

The commission's report to Eisen-

hower included seven alternate

plans, but the members said they

were unanimous in backing the

one calling for a presidential of-

fice building, on the State-War-

Navy site, remodeling of the

White House west wing, and con-

struction of still another execu-

tive office building across Pen-

sylvania Avenue.

# Salem Polo Club Drops Opener To Columbus Riders 13-8

## Glen Tefemanzi Sparks Locals

Mahoning Polo Club Here Next Sunday

The Salem Polo team lost its first match of the season to Columbus Harbor Hills, 13-8 in a thrilling battle at the local field Sunday afternoon before some 200 persons.

Frank Harris featured the visitors' attack, scoring six goals in a fine exhibition of hard riding. His teammate "Ron" Davis scored four goals.

Glen Tefemanzi sparked the Salem riders with his three markers, followed by team captain Phil Thompson and Lloyd Bruner, who each made two goals apiece.

In the first chukker, Bo Baker and Frank Harris put Columbus out in front 2-0.

Lloyd Bruner cut the deficit at this point with some fine riding and shooting for Salem's first tally. Harris tallied again and at the end of the first chukker, the score was Harbor Hills 3 and Salem 1.

By halftime Columbus had built up a 6-3 lead. The Harbor Hills riders increased their lead to 9-5 at the end of the fourth chukker, and going into the last period, the Harbor Hills team held a commanding 12-6 margin.

Next Sunday the Salem team will play host to the rough riders from the Mahoning Polo Club at the local field, in what should prove to be another exciting contest.

This is the first season of play with the Salem club for most of the present members.

Newcomers are Ronnie and Glen Tefemanzi, Paul Powers and Jim Watson, Phil Thompson and Lloyd Bruner, the other two team members, played with the local riders in the past.

## Outsiders Recruiting Little Leaguers

ALLENTELL, Pa. — Little League baseball leaders have called a special meeting here tonight to combat alleged recruiting raids by outside leagues on the group's roster of 270 players between the ages of 8 and 12.

Non-Little League groups were reported offering three-day trips to New York City, free taxi rides to and from practice sessions, and promises of gifts for outstanding performances to lure boys away from the Little League.

The nationally known Little League locally is represented solely by the Mountainview Memorial Assn. There are some half a dozen other leagues in Allentown, where baseball competition among youngsters is taken seriously. The leagues are sponsored by men's clubs and other groups.

Steubenville, O. — Wilf Greaves, 158, Pittsburgh, stopped Johnny Neal, 154, Milwaukee, 6,

## Indians Lose 8-2 To Athletics

### Tribe 5½ Games Behind White Sox

CINCINNATI (AP) — Homeward bound from a western swing on which they lost five of eight and fell 5½ games behind the pace-setting Chicago White Sox, Cleveland's Indians meet Cincinnati's National League leaders in an exhibition game here tonight.

Until the last half of the eighth inning in Sunday's 8-2 loss at Kansas City, it looked as though the Tribe might break even on the western trip.

The score was tied 2-2, and Ray Narleski was on the mound in relief of starter Mike Garcia, who left for a pinch hitter in the Indians' rally that tied the score in the top of the eighth.

The Athletics fell upon Narleski as though they never had heard of his 4-0 won-lost record and his .29 earned run average over 30-23 innings, including a string of 13-23 scoreless innings.

Lou Skizas pounded a single past the mound, took second on Hall Smith's sacrifice and came home on Johnny Groth's single. After Hector Lopez rapped a single off third baseman Larry Raines' knee, Mickey McDermott, the winning pitcher, fanned for the second out.

But Billy Hunter and Joe De Maestri followed with singles to left, Lopez scoring, and Vic Power was passed purposely to load the bases for a three-run triple to right center by Bob Cerv.

When Narleski left the game at this point and Don Mossi came in, Narleski's earned-run average had jumped to 2.01. He was charged with his first defeat in 18 relief appearances this season.

The assault on Narleski produced more runs than the two teams combined scored in the rest of the game. Rocky Colavito's fifth home run got the Tribe off to a 1-0 lead in the second inning, but Vic Power homered to tie it in the sixth.

A single by Power after Alex Kellner's double scored a K.C. run in the seventh, and Cleveland tied it in the eighth on a walk, Chico Carrasquel's double, and Hal Naragon's sacrifice fly.

Manager Kerby Farrell said that in the New York Yankee series which starts a two-week home stand by the Indians against eastern clubs, he plans to use Bud Dayley in Tuesday night's opener, Early Wynn on Wednesday night, and Garcia in Thursday afternoon's finale.

The "problem" is the National League's permission for the Brooklyn Dodgers and New York Giants to go west, presumably to Los Angeles and San Francisco.

The directors, O'Connor said, were adamant on two points:

1. The Pacific Coast League will not be lowered from its "open" classification to a lower one.

2. All this talk of the majors moving west is hurting PCL attendance. Bob Cobb, Hollywood Stars president, estimated a \$500,000 loss at league gates this year because of the reports.

O'Connor said the directors unanimously agreed that the 53-year-old league would be doomed unless the majors cooperate in finding new cities to replace any lost teams. He said no potential cities were mentioned.

The PCL also wants a percentage of radio and television money from West Coast major league operations, he added.

O'Connor said the question of indemnities for PCL teams did not come up.

## Hawklawn Bowling League Ends Season

The Lisbon Hawklawn Bowling League closed out the season with a banquet recently at the American Legion Home in Lisbon.

This year's league winner, Burton Ford, was presented the team trophy, and each of the team members received a pin. Team members were Vivian Wilt, Evelyn Clapsaddle, Jane Lisko, Alma Wenzel and Pauline Burton.

Marge Gardner of the Buckeye Coal team received a pin for high average.

The association picnic will be June 12 at Firestone Park, Columbian, and the 200 Club picnic June 26 at the home of Dolores Stockman in Lisbon.

LEAD IN BOWLING CINCINNATI (AP) — Steve Celinski of Cleveland and Lil Dier of Cincinnati are the new singles champions of the American Blind Bowling Assn. after four days of national tournament competition.

Celinski's 557 topped net singles challengers in the tournament that ended Sunday and Miss Dier's 620, rolled in the last group of bowlers, gave her a 15-pin victory in the gross singles.

Celinski teamed up with S. Kimball of Cleveland for 942 to win the net doubles event.

In gross doubles, Jim Jones and Harry Levin of Brooklyn compiled 1,139 for top place.

## Pirates Victors In 2; Phillies, Braves Win; Yanks, Orioles Split Twin Bill

### White Sox Defeat Tigers 4-1 After Losing Opener

By JOE REICHLER

Associated Press Sports Writer

Mayo Smith's slightly startling Milwaukee Phillips, who have displaced Milwaukee and Brooklyn as Cincinnati's foremost rival for first place, have hit upon an old but effective winning formula.

They are simply getting strong front-line pitching, excellent relief hurling, clutch hitting and airtight defense. Does a team need any more?

The second-place Phillies got all of that Sunday as they made it three in a row over Brooklyn 5-3.

It took a grand-slam homer by Bob Thurman to give the Cincinnati Redlegs a split in their double-header with Chicago. The Cubs came back to win the second game 4-2 after a 6-4 defeat.

Milwaukee climbed past Brooklyn into third place with a 3-1 victory over St. Louis and Pittsburgh swept a double-header from the New York Giants 3-2 and 2-0.

Chicago's spectacular White Sox maintained their five-game spread over the rest of the field in the American League, coming back to defeat Detroit in the second game 4-1 after the Tigers had won the opener 3-1.

Kansas City dropped Cleveland into third place, half a game behind New York, defeating the Indians 8-2. Boston came from behind to overcome Washington 5-3. The Yankees defeated Baltimore 4-0 after the Orioles had made it three in a row over the world champions with a first-game 3-2 triumph.

The Phillies collected only seven hits against Don Newcombe but used six of them in scoring their five runs. Richie Ashburn tripled to score Bob Miller, who had singled in the third. Rip Repulski's single, Harry Anderson's double and Stan Lopata's home run produced three runs in the fourth. Relief pitcher Dick Farrell homered in the eighth.

Miller, the starter, allowed TRY SALEM NEWS WANT ADS

Brooklyn only one run until he was relieved by Farrell with two on and nobody out in the fifth. Farrell stopped the Dodger threat and went on to yield only three hits in five innings.

On defense, the Phils played errorless ball for the sixth time in their last 12 games and contributed five double plays with shortstop Chico Fernandez participating in four of them.

Thurman's grand-slammer for Cincinnati came in the fourth inning, during which Chicago starter Moe Drabowski practically wild-pitched himself out of the game. The bonus right-hander walked three and hit two batters

during that five-run inning. Hersh Freeman hurled three-hit ball in the last five innings.

Bob Rush and Don Elston stopped the Reds with three hits in the nightcap.

Bob Buhl won his fourth game in five decisions for Milwaukee but it took a splendid relief job by Ernie Johnson in the ninth. Johnson got pinch hitter Walker Thurman to hit into a double play and struck out Don Blasingame. Bobby Thomson's two-run single off Larry Jackson was the big blow.

First baseman Dee Fondy's five

hits helped Ronnie Kline gain his first victory and Bob Purkey his fourth in Pittsburgh's first double-header sweep of the season.

Jack Harshman's first triumph since May 1, a four-hitter, gave the White Sox a split with Det. Nellie Fox, with two singles, and Walt Dropo, with a single and home run, led an eight-hit assault against Paul Foytack. In the opener, Terry Duplantier fanned all his team's runs.

Veteran Bill Wright of Baltimore and rookie Ralph Terry won their first games in the Oriole-Yankee split. Wright hurled a three-hitter in the opener and Terry duplicated the feat in the nightcap. Billy Gardner scored the first-game

winning run on

Speedway To Offer Eight-Race Card

# 'Salem Night' Is Scheduled Wednesday At Canfield

Wednesday night racing will be Nook Walters, Gene Gosling, Bud Wilhelm, Chuck Dorsey, Ernie Kramer, Dave McMurray, Walt Boslough and many others.

The opening Wednesday night has been designated as "Salem night." Canfield Speedway management will honor the city of Salem and a large following of Salem stock car racing fans are expected to be on hand.

Featured on Wednesday will be the late model cars, some 40 or more, in an eight-race card: four heat races, the Australian pursuit, consolation and a 20-lap feature.

All of the leading drivers in the area will be on hand. Among them will be Bill Forney, Gus Acozzi,

should be large and action should be terrific.

There will be two 20-lap features on Saturdays, along with six other events.

Winners of late model features this year have been Bud Wilhelm, Nook Walters and Bob Harrison.

All of these top drivers will be here for the Wednesday night session.

Saturday night the late models will appear in a split program with the modified "bombs."

Another first will be staged on Saturday as open competition will be in force for the modified cars.

No car will be barred and any-

thing can be under the hoods of these cars. As a result, the field

## Signs of Mildew Prevalent In Hot Weather

If you detect signs of mildew in your home or belongings, it will be both heat and humidity that are to blame. Nothing will bring on this fungoid growth — for that's what it is — faster than a week or two of steamy, showery weather.

If you have just gone through such a period make a thorough check of your home for evidence of mildew. It appears as thin, whitish, fuzzy-like discoloration. And it is completely impartial as to where it grows or what it grows upon.

Check basement, closets and laundry first, since they are the funkiest spots for mildew to form.

CLEAN IT OFF QUICKLY. Good old soap and water work wonders. Remember that mildew is a fungus and, if allowed to grow, it

will destroy the fibers on which it feeds.

Soap and water will work well on fresh mildew. For older, more stubborn growths, use a solution of tri-sodium phosphate and water, about two ounces of the chemical to a gallon of water. And if you feel that an even stronger cleaner is needed, add a little ammonia to the solution. Rinse objects thoroughly with clear water after application of solution.

Leather and fabrics that have been cleaned this way should be put out in the sun to dry thoroughly and air out.

As mildew becomes old, its removal becomes more difficult. Even after the top crust has been removed, the fungus remains deeply imbedded. Sponge with lemon juice or vinegar and dry in the sunlight. If the material will stand a bleach, try diluted chloride of lime or Javelle water.

Painted surfaces that have become weakened from mildew require repainting. First, remove the old paint and clean off the fungus. Use household bleach for cleaning, or a solution of bichloride of mercury, one-half ounce to a gallon of water.

When using any bleach or strong cleaning solution, take proper precautions. Wear rubber gloves. Keep sleeves rolled down. If working on a surface in front of you or overhead, protect your eyes with goggles. An old pair of sunglasses can serve as a makeshift WHEN YOU REPAINT in the fall, ask your dealer for a mildew-resistant paint. The paint can's label will tell you if a fungicide is included. If it isn't, you can purchase the ingredient separately and add it to the paint.

To prevent the formation of mildew in your home, you must prevent excessive moisture. Adequate ventilation is a must.

Exhaust fans will pull moisture-laden air out of the kitchen, bath and laundry. Even an open basement window helps.

If the moisture problem is a serious one, you might consider the use of a dehumidifier, either electric or chemical.

Many department and hardware stores carry dehumidifying chemicals done up in attractive packages small enough to hang in a closet or big enough to use in a basement.

After a rainy spell, take advantage of the first dry, hot day that comes along to air out stored-away items such as blankets, luggage and rugs.

And check your home often for traces of mildew. Preventing it is easier than repairing its damage.

And check your home often for traces of mildew. Preventing it is easier than repairing its damage.

If the moisture problem is a serious one, you might consider the use of a dehumidifier, either electric or chemical.

Many department and hardware stores carry dehumidifying chemicals done up in attractive packages small enough to hang in a closet or big enough to use in a basement.

After a rainy spell, take advantage of the first dry, hot day that comes along to air out stored-away items such as blankets, luggage and rugs.

**PLUG LEAKY TANKS**

A leak in the hot water tank can be sealed effectively with a sliver of any close grained wood. Whittle the wood on a long taper to a point fine enough to enter the hole. Drive the plug in snugly and cut it off with an inch or so left exposed.

**Don't Despair If Aging Roof Begins To Leak**

No home-owner is happy to find he has a leaky roof, but it's a fact that prompt discovery of leaks can be a blessing in disguise.

First, the early discovery of a leak in an old roof lets the homeowner prevent serious damage to the interior of his house by repairing right away.

Second, he can choose colorful asphalt shingles for the new roof. Chances are that the old roof has given many years of trouble-free service, and was applied before today's exciting pastel, solid and blended colors were available. Re-roofing in one of these up-to-date colors results in a brighter, more attractive home that can give a lift to the entire neighborhood.

Another advantage of re-roofing with modern colors available in asphalt shingles is that the new roof can be used as a key color in choosing a new decorating scheme for the rest of the house.

Third, the home-owner can stop worrying about leaks after the re-roofing job is done. Asphalt shingles are durable and give a tight roof which will resist years of harsh weather in all seasons.

Why a completely new roof? Why not patch up the old one? The National Bureau of Standards has the answer: "A single apparent leak in a badly weathered roof," the bureau says, "is probably evidence of other similar leaks that have not been noticed, and is usually the fore-runner of other, larger leaks that will appear in a relatively short time."

The bureau adds that locating the leaks in an old roof is difficult and that walking around on the roof to find and repair leaks frequently results in starting new ones.

For these reasons, an old, weathered roof should be completely reroofed, since attempting to patch it is generally a waste of time, labor, and materials.

**Few Changes Can Help Bathroom Look Larger**

Are you stuck with a cramped bathroom?

A few changes can add comfort and make the entire room look larger, says the Plumbing Fixtures Manufacturers Association.

First, call on color for help. Replace old fashioned white fixtures with new color fixtures that blend with the rest of the room. Pastel walls and ceilings, complementing the fixtures, will make the room look brighter and larger. Selected accessories can give final touches to the color scheme.

Don't overlook a large wall mirror above the lavatory. This time-tested trick seems to double the room size while providing extra convenience for grooming.

**SMALL LAVATORIES** often are helpful. These look larger when enclosed in a countertop. A vanity cabinet beneath can cover the piping and provide a storage place for towels and linens. Of course, corner lavatories make the room look larger by fitting nicely into unused areas.

Square bathtubs or receptor tubs averaging four feet square also fit snugly into corners. They can change the bathroom's appearance and give depth where most needed.

**THIN WITH TURPENTINE** Ingredients in quality house paints are carefully balanced to give the best possible service. For this reason, oil should not be used as a thinner. If the paint has thickened, a small amount of turpentine may be added.

Brown or white eggs are used interchangeably; their color has no relation to quality, flavor or food value.

## THE SALEM, OHIO, NEWS

**Use Metal Lath To Cover Radiator**

An easy way to enhance the appearance and increase the usefulness of cast iron radiators is to construct enclosures for them out of wood frames and metal lath. Enclosures of this type provide decorative stands and yet allow the full flow of heat when the radiator is being used.

To make your own stands, the only tools you need are tinner's snips, hammer, saw and sanding block. A little imagination on the part of the home handyman will result in an extremely attractive enclosure.

Wide used as a plaster base, various types of metal lath are suitable for this type of work. The recommended type for a radiator enclosure, however, is the diamond mesh metal lath, weighing 3.4 pounds per square yard. Made of expanded copper alloy steel, diamond mesh lath can be obtained at well stocked building supply yards with either a protective paint covering or galvanized. Either can be painted in colors to suit your room's decoration.

MIX FIES CRACKS

Cracks that appear between strips in wood flooring can be satisfactorily filled with mixture of wood glue and fine sawdust. The sawdust is often sold commercially as wood flour.

**LEGAL NOTICES****NOTICE OF APPOINTMENT** Case No. 52785

Estate of Bertha V. Jackson, Deceased.

Notice is hereby given that Ethel Helen Greenbaum, of 231 W. 16th St., Salem, Ohio, has been duly appointed Executrix of the Estate of Bertha V. Jackson, deceased, late of Columbiana County, Ohio.

Creditors are required to file their claims with said fiduciary within four months.

Miss Sara Cooper of Washington, D.C., is visiting friends and relatives here.

The Community Mothers club met recently at the home of Mrs. Beulah Converse, with co-hostess, Mrs. Zelda Trotter. Mrs. Converse read a magazine article regarding teen-agers.

The next meeting will be at the Mildred Heck and Miss Peggy Sitler home of Mrs. Clara Hartley, June 11.

## Bliss Company

Continued from Page One

cent of Chemetals, and the Rolling Mill Division has developed the machines which make the production possible.

The attraction is an actual pilot production line setup in the Bliss plant where powder goes in at one end and out the other end comes a metal strip — copper, brass, nickel, titanium, just to name a few.

**ANOTHER RECENT** achievement of the Rolling Mill Division was the building of a complete steel works expansion for Jones and Laughlin. Bliss handled the whole job as prime contractors. Sub-letting some contracts, Bliss was still responsible for the major portions from excavation, pile driving and foundations to the completed mill installation and auxiliary equipment.

Just to show the importance of Bliss mills in other countries — a rolling mill erected in Mexico now enables that neighbor country to make its own cotton tie strip, instead of importing every pound of it.

Another Bliss mill in Belgium is the first large tandem mill ever set up in one of the Benelux countries which can reduce thick hot-rolled bands to thin cold rolled strip metal in a continuous operation.

All this gives some idea of the part the Salem plant plays in world wide industry, but of real importance to Salem is the part Bliss plays in its community life.

Bliss-Salem prides itself on being able to make practically any-

thing in the way of special machinery, thanks to its combination of skilled personnel and varied production facilities.

"In a high-risk business such as ours," says Perrault, "it's important to be able to select the right personnel. And we're glad to say that we have been able to do so here in Salem, and in surrounding communities like Columbiana, Lisbon, East Palestine, Canfield and Alliance."

**BLISS HAS THE LATEST** in equipment, such as an \$800,000 special machine tool recently installed. Over one and a half million dollars worth of new machine tools, buildings and cranes are most recent additions.

To maintain a partnership of high quality workmanship with the right tools, Bliss-Salem is planning ahead to keep pace with the best in its field, always emphasizing personnel safety features.

The Bliss plant here carries on its payroll people who work in Europe and Japan, and erection engineers in the four corners of the world have been brought up from the ranks of plant production personnel, for Bliss believes in recognizing its own family talents and upgrading from within the organization, Perrault points out.

**CONVERSELY**, many of the other local plants and industries use E. W. Bliss products.

The Salem plant, because of its ability to fabricate just about any kind of machinery product, has frequently helped other local industries by turning out for them in emergencies any parts which fall under the category of machinery, regardless of application or use.

Still the world's leading press builder, it now ranks among the leaders in rolling mills and allied equipment. Besides these two important activities, it has four other divisions engaged in different phases of service to the metal working industry of the world.

The Mackintosh - Hemphill Division produces the metal working rolls used in mills, and also manufactures roll turning lathes, tube straighteners and cinder pots, with large modern foundries available to this end.

The Can Machinery Division makes a complete line of machinery for making cans, including a new automated bodymaker which whips out perfectly-formed cans at the incredible speed of 450 a minute.

The Special Products Division builds specialized machinery on a contract basis, producing for the U.S. government such varied items as atomic reactor parts and steam catapults to launch Navy jets.

The Die Supply Division manufactures die sets in all sizes, and distributes a complete line of die maker's supplies.

**HEADING THE ENTIRE COMPANY** is President Robert Potter, who rose to his present post through the Rolling Mill Division, and maintains his family residence in Salem.

While still vice president of the Rolling Mill Division, Mr. Potter led an aggressive Salem group, both energetically and widely. Currently, he is on a business tour of Europe during which, among other official functions, he took part in the dedication of the Bliss mill at Liege, Belgium.

### Mother Of 5 Admits Slaying Husband

YOUNGSTOWN, Ohio (AP) — Police said a pregnant mother of five children was held without charge today after admitting the fatal stabbing of her husband at their home in nearby Campbell. Police Chief John Putko of Campbell said Mrs. Lorine Walker told authorities she stabbed her husband, Roosevelt, 30, with a butcher knife when he threatened her with a razor Saturday night.

**AEC Expects Minor Off-Site Fallout**

ATOMIC TEST SITE, Nev. (AP) —

Three air masses spreading out from the site of Sunday small-scale A-bomb test are expected to bring only minor off-site fallout,

the Atomic Energy Commission reports.

The blast, second of the current

test series, caused only a brief

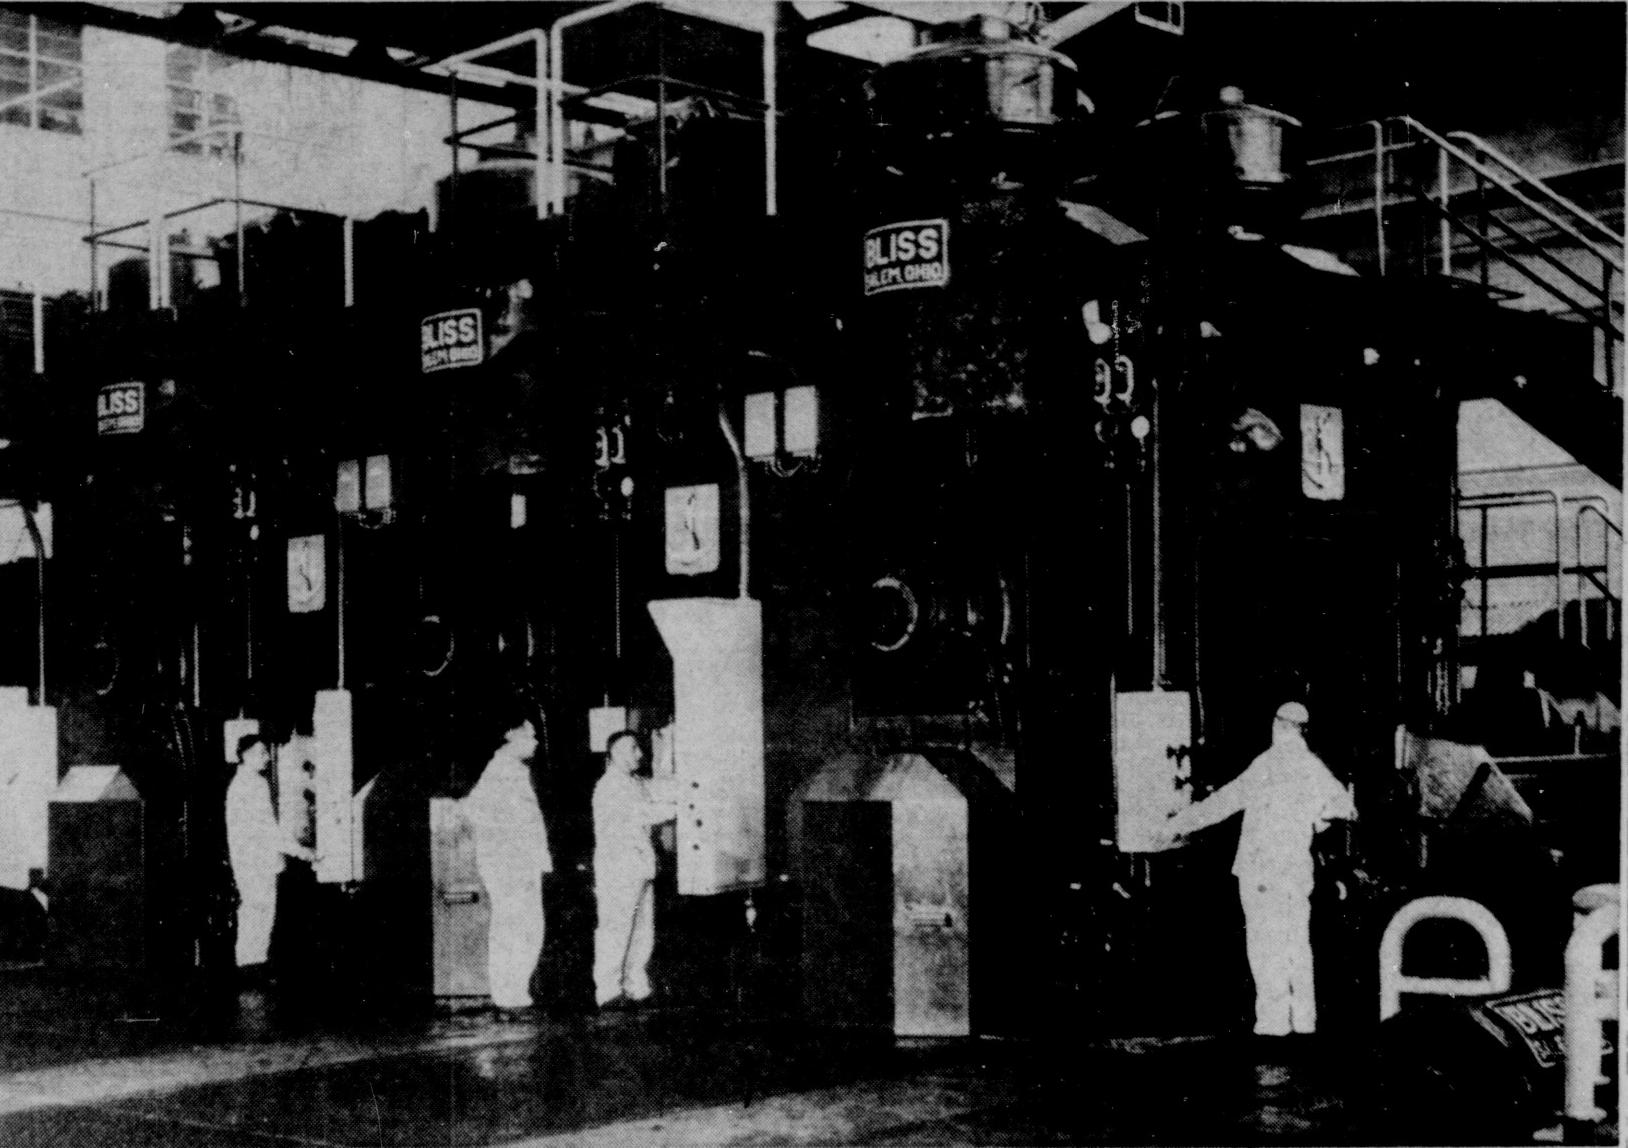

flash and a small, round cloud.

Observers guessed size of the shot at less than five kilotons. A kiloton is equal to 1,000 tons of TNT and the "nominal" A-bomb — the World War II model — runs 20 kilotons.

Pigs, monkeys and mice were placed in the path of the blast in a test of effects of gamma and neutron radiation.

Next test blast is tentatively set for Tuesday morning.

FROM SALEM, OHIO TO LIEGE, BELGIUM is a long way to ship a rolling mill, but that's what Bliss did with the mill shown above, the first large tandem mill ever set up in any of the Benelux countries. Robert Potter, president of E. W. Bliss Co. was present at the formal dedication of the mill last week.

### Warns Against Anti-Labor Legislation

CANTON, Ohio (AP) — I. W. Abel, secretary-treasurer of the United Steelworkers of America, said Sunday that the Senate Rackets Investigation Committee was paving the way for legislation that would start as a press builder 100 years ago.

The committee has been investigating the handling of union funds by Dave Beck, president of the Teamster's Union.

Abel told the 40 delegates attending the 12th annual conference of District 27, USW, that while taking exception to the "wrong doings" of Beck, the public should not place all other labor officials in the same category.

"There are laws in this country today which give the department of Justice enough leeway to prosecute those guilty of crime," he said.

The delegates approved a resolution calling for a 15 per cent increase in supplemental benefits to 75 per cent of take-home pay. The resolution also urged demands for a union shop, a shorter work week with no reduction in pay, elimination of geographical hourly wage differentials, double-time for work on Saturday and Sunday and improved vacation benefits.

The delegates approved other resolutions asking union locals to establish scholarships, urging closer contact with community agencies, asking Congress to support civil rights legislation in the present session and pledging a more extensive program on the part of the union in the field of political action.

A more equitable state taxation program, improved workers' compensation legislation and more adequate unemployment benefits also were asked by the conference.

### Tonight's Subject Is Delicate, Says Graham

NEW YORK (AP) — Evangelist Billy Graham says his subject for tonight at Madison Square Garden is "somewhat delicate for a mixed audience," but he's going to discuss it, anyway.

The subject is "the seventh commandment — The Moral Problem." The seventh commandment forbids adultery.

Sunday night he told an audience of 17,000 "you can't run up to Jesus any time and say 'Lord, here I am'" and expect to be saved.

"No one will meet Christ who hasn't come by way of the cross ... you must receive Christ," he said.

Sunday night's attendance pushed Graham's total cumulative audience at the Garden to 355,300.

The blast, second of the current test series, caused only a brief flash and a small, round cloud. Observers guessed size of the shot at less than five kilotons. A kiloton is equal to 1,000 tons of TNT and the "nominal" A-bomb — the World War II model — runs 20 kilotons.

Pigs, monkeys and mice were placed in the path of the blast in a test of effects of gamma and neutron radiation.

Next test blast is tentatively set for Tuesday morning.

### Press Barred From Meeting At University

BOWLING GREEN, Ohio (AP) — Bowling Green State University barred the press from a meeting Sunday night at which university officials and the Interfraternity Council discussed causes of the recent riot on the campus.

But Harold Van Winkle, public relations director at the university, said Dr. Ralph McDonald, president of the school, told him after the meeting that it was "very friendly."

An estimated 1,500 students rioted at the university May 24. A feud between the council and the university administration over interpretation of the school's ban on liquor at social events was blamed for the demonstration.

Van Winkle said all 16 fraternities at the university were represented at the meeting, including the two which have been suspended indefinitely since the riot. Also have been expelled, two suspended have been expelled, two suspended and one convicted of inciting a riot.

Douglas Eggleston, Kenmore, N.Y., president of the council, told Dr. McDonald that some system should be set up for clarification of the university's policies, Van Winkle said.

The university said its ban on liquor at social functions included off campus events as well as those on the campus. But some fraternities said they interpreted the regulation as applying only to social affairs on the campus.

Van Winkle said it was agreed at the meeting that a public relations board made up of six students and four faculty members would be organized to explain university policy on any issues that arise.

He said the students complained of lack of communication between students and the school's officials.

Van Winkle said the students also complained that the present student government, run on a student-faculty committee basis, is not representative of the entire student body.

Slip a few slices of pimento on a cheddar cheese filling for a tangy toasted sandwich.

### Bliss Employees Active In Community Life of Salem

Important as the industrial Roy G. Fennema, production manager, is president of the Rotary Club and is active on many committees and civic planning groups.

G. Ewing Farrington, Bliss chief engineer, another Rotarian, is director of the Salem Youth Center.

Others, including H. G. Gibson, Frank Schmid, Pat Colian, Ralph Martin, Daniel Weber, Jack Rance, Mel York, Louis Colian, O. P. Ballantine, J. H. Hiegel, Fred Sweetzer, W. A. Tarleton and L. J. Fisher, give their time and talents and leadership to serve on various community projects and in their respective churches.

Bliss personnel also participate in their local city government, and several office and shop employees have served in various elected-office capacities, including Messrs. Colian, Knechtel, Smeitz, and others who ran for or served as councilmen, justices of the peace and school board.

BLISS PRESIDENT Robert Potter has long been active in the Boy Scout programs and their special projects.

George Baillie, Jr., general sales manager, is an elder and chairman of the Baptist Church, and is an active Rotarian, despite the extensive travel his job requires.

### Two Youths Seriously Injured In Collision

WARREN, Ohio (AP) — Two 17-year-old boys were in Sharon, Pa.

General Hospital today with serious injuries received in the collision of a car in which they were riding and a Sharon-to-Warren bus.

After the collision just west of the Pennsylvania line Saturday night, the bus plunged down a 20-foot embankment, upsetting on its top, and the car crashed into a tree. State highway patrolmen said the car failed to stop at an intersection.

Lawrence Sluyter of Sharon suffered a possible skull fracture and other injuries, and Ralph Miller of Brookfield Twp., Ohio received a possible pelvis fracture and other injuries. Patrolmen said Sluyter was driving the car in which Miller was a passenger.

The Anderson Sterling Stages Co. of Howland bus was driven by Carl Chidester, 43, of Howland. He was cut and bruised, as were four bus passengers: Leona Kilgore, 25, and Mrs. Mary Petrillo, 27, both of Sharon, Esther Canadas, 21, of Warren, and John Hodges, 36, of Cleveland.

Farm Land Prices Go Up Three Per Cent

WASHINGTON (AP) — The Agriculture Department reported today that a prolonged boom in farm real estate sent agricultural land prices up another 3 per cent during the four months ended March 1.

The March 1 average prices set a new record 7 per cent above a year earlier. In a report on the farm real estate situation, the department foresaw nothing in the picture to halt an upward trend that started in 1941.

The March 1 value was equivalent to \$94.52 an acre of land in farms.

A five-pound corned beef brisket will serve a family of 4 generously for two meals.
